EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Scott Hewett on 4/28/05.

The application has been amended as follows:

Claims 1, 6 and 11 are amended as follows:

Claim 1 (currently amended): A portable motion-sensing light comprising:

a sealed housing;

a sensor adjustably mounted on the sealed housing and electrically coupled to

a control circuit inside the sealed housing coupled to

a lamp socket adjustably mounted on the sealed housing configured to accept a light bulb, the sensor being separately adjustable from the lamp socket; and

a power cord having an electrical plug on a first end of the power cord and entering the sealed housing at a power cord entry securing the power cord to the sealed housing, a second end of the power cord being connected to electrical connections within the sealed housing, the power cord entry cooperating with the electrical connections within the sealed housing so as to provide a weather-resistant seal and strain relief allowing outdoor motion-sensing illumination; and

further comprising expanding closed-cell foam applied within the sealed housing around at least one of the power cord entry, a sensor wire entry, and a lamp socket wire entry.

Claim 6 (Canceled).

Claim 11 (currently amended): A method of operating [an outdoor] a weather-resistant portable motion-sensing light of claim 9 [with an integrated power cord extending through a power cord entry providing a weather-resistant seal between the integrated power cord and into a weather-resistant housing of the motion-sensing light and having an electrical plug at a first end of the integrated power cord], the method comprising:

providing the motion-sensing light with the integrated power cord extending into a weather-resistant housing of the motion-sensing light and the electrical plug on the first end of the integrated power cord;

mounting the motion-sensing light at on a first outdoor support structure; and

plugging the electrical plug of the integrated power cord into an electrical outlet.
